

Project Labour Sourcing & Personnel Supply

Supplying specialist personnel to a varied client network and assisting in manpower shortfalls for Project Engineering, Management, Construction, Completion and Commissioning and Start-up operations is a key function in our business.

We supply a large amount of specialist and disciplined personnel to Turn Key projects within the nature of our specialist services and activities supplied we are not considered a Labour supply company and all personnel supplied are vetted and are supplied on high merit with verified track records and accreditation from us.

In-house access to hundreds of specialist personnel via our very comprehensive personnel database system and project networks.

Large project teams can also be established and managed by us having experience in contracting local and foreign labour and screening for experience labour with a proven track record and project experience tailored to suit our clients needs.

We have a large supply of bilingual personnel with excellent communication skills in native language and a number of other languages enhancing the communication barriers with interface works and sub-contract issue within a project.

Project Managers

- Commissioning Managers
- Construction Managers
- Safety Officers
- Project Engineers
- Design Engineers
- CAD Engineers
- Planning Engineers
- Commissioning Engineers
- Mechanical Engineers
- Electrical Engineers
- Instrumentation Engineers
- Telecoms Engineers
- Piping Engineers
- Naval Engineer
- Design Engineers
- QA/QC Engineers
- Cost Engineers

Quantity Surveyors

- Planners
- Mechanical Supervisors
- Electrical Supervisors
- Instrumentation Supervisors
- Pre-Commissioning Supervisors
- Construction Supervisors
- Mechanical Technicians
- Electrical Technicians
- Instrumentation Technicians
- Pre-commissioning Technicians
- Telecoms Technicians
- Platers & Fabricators
- Coded Welders

Project Labour Sourcing & Personnel Supply

..... tiene sus propios recursos para todo tipo de Gestión de Proyectos, Terminación y Comisionado. Empleamos la mayoría de nuestro personal de proyectos Llave en Mano para nuestros clientes. Debido a la naturaleza de la especialización de nuestros servicios no estamos considerados como una compañía de suministro de mano de obra, ya que un alto porcentaje de nuestro equipo de personal ha trabajado con nosotros en proyectos de terminaciones y comisionado durante muchos años.

- Directores de Proyecto
- Directores de Comisionado
- Directores de Construcción
- Oficiales de Seguridad
- Ingenieros de Proyecto
- Ingenieros de Mecánica
- Ingenieros de Electricidad
- Ingenieros de Instrumentación
- Ingenieros de Tuberías
- Ingenieros Navales
- Ingenieros de Diseño
- Ingenieros de Precomisionado
- Inspectores de Cantidad
- Planificadores
- Supervisores de Mecánica
- Técnicos de Mecánica
- Supervisores de Electricidad
- Técnicos de Electricidad
- Supervisores de Instrumentación
- Supervisores de Precomisionado
- Técnicos de Precomisionado
- Supervisores de Tuberías

•Un des services essentiels que nous offrons est la mise à disposition de personnel qualifié pour différents réseaux de clients et pour une assistance en cas de manque de main d'oeuvre pour l'ingénierie de projet, la gestion, la construction, les opérations de préparation, de mise en marche et d'achèvement.

- Chefs de projet
- Directeurs de mise en marche
- Chef de construction
- Personnel de sécurité
- Ingénieurs projet
- Ingénieurs concepteurs
- Ingénieurs CAD
- Ingénieurs en planification
- Ingénieurs de mise en marche
- Ingénieurs mécaniciens
- Ingénieurs électriciens
- Ingénieurs en instruments
- Ingénieurs en télécommunications
- Ingénieurs en canalisations
- Ingénieurs navals
- Ingénieurs concepteurs
- Ingénieurs assurance qualité
- Ingénieurs évaluation des coûts
- Métreurs-vérificateurs
- Planificateurs
- Superviseurs en mécanique
- Superviseurs en électricité
- Superviseurs en instruments
- Superviseurs en préparation de mise en marche
- Superviseurs en construction
- Techniciens mécaniciens
- Techniciens électriciens
- Techniciens en instruments
- Techniciens en préparation de mise en marche
- Techniciens en télécommunications
- Fabricants et constructeurs
- Soudeurs qualifiés
